Municipal Roll #:

### Applicant's Checklist:

Completed application for Farm 911 EPAP sign

Sketch/site plan, including existing entrance location with distance to and in context with  
property line(s)

### Application conditions

Application review: Applications will be reviewed by Planning Division staff for completeness and compliance. The municipality's review process will not begin until receipt of a complete application package. Changes to the application by the applicant during the review process will increase the length of the review period.

**Application approval:** Applying for a Farm 911 EPAP address does not guarantee the application will be approved. If approved, applicants will be notified by phone when their application has been approved. Upon receiving such notification, the applicant may pick up their approved application and Farm 911 EPAP sign for installation from the Planning Division.

**Farm 911 EPAP address use:** The address assigned to the property shall only be used to reference the location of the field entrance to the property (such as for Emergency Services) and shall not be used as a mailing address for the property.

**Installation and maintenance:** The property owner shall be responsible for the installation of the address post and sign. The installation guidelines, as indicated through the Civic Numbering By-law and manual, shall be followed. The owner is responsible to ensure signage remains visible and is maintained. If the sign is damaged, the owner may contact the Town for a replacement sign.

**Changes to access/entrance:** Property owners must apply for an entrance permit, and any other permits/approvals required, for any changes to the access in which a Farm 911 EPAP address has been assigned. An assigned address through the Farm 911 EPP does not guarantee an approved entrance permit for this location, as at the time of the Entrance Permit Application, the access/entrance will need to meet the Town's current standards.

**Classification of Access/Entrance:** The assigned address through this application shall only be used for fields or vacant properties (classified as field entrances), and will not be suitable for residential building applications. Further, obtaining a Farm 911 EPAP address in no way constitutes a legal entrance.

**Applicant(s) signature:**

It is hereby acknowledged that having a Farm 911 EPAP address assigned to an existing property does not replace an entrance permit for future upgrades or improvements to the access point. It is hereby acknowledged that the address assignment does not permit further use or development of the property without the appropriate approvals. It is hereby acknowledged that an address assigned through the Farm 911 EPAP application is to reference location only (ex. For Emergency Services), and shall not be used as a mailing address. The assignment of a Farm 911 EPAP address does not constitute the approval of an entrance from a public highway, nor does it deem the access point safe for use or that it meets the Town's/Region's entrance standards. The assignment of a Farm 911 EPAP address does not guarantee that the access point is adequate for Emergency Services vehicles and where access is not adequate Emergency Services vehicles may not be able to enter the property. It is hereby acknowledged that the property owner is responsible to maintain and keep the access point in good repair and ensure address signage remains visible and well maintained. Should the sign be damaged, knocked down or removed, the property owner shall contact the Town of Georgina Planning Division for a replacement sign. The applicant agrees to abide by the conditions and specifications included in this application, and outlined in the Civic Numbering By-law and manual, and acknowledge this by their signature below.
